Digital Library Products & Resources 2021

Supporting teaching, learning, and research
Whether online, in person, or a little bit of both, SAGE has the resources and tools to meet your users wherever they are. From our award-winning content supporting the social sciences curriculum to cutting-edge tools to ease access issues to your library’s digital content, SAGE provides:

- **Scalable academic resources** for online courses and research
- **Unlimited, simultaneous** access for all students and researchers
- **Cross-discipline subject** content expertly aligned to academic course curricula
- **Simplicity of use**—embeddable content, including custom video clips and resource lists
- **Accessibility and cost efficiency**—platforms developed to support all users

Supporting the future of teaching, learning, and research

SAGE is proud to publish the market-leading journal within 10 SSCI categories and 2 SCI categories including Cultural Studies; Education & Educational Research; Education, Special; Family Studies; History & Philosophy of Science (SSCI); History & Philosophy of Science (SCI); Orthopedics; Psychology, Psychoanalysis; Psychology, Social; Rehabilitation (SSCI); Social Sciences, Mathematical Models; and Social Work.
Content
International in scope • Peer-reviewed • High-quality
- **High-impact**—more than 54% of SAGE’s journal content is ranked in the Journal Citation Reports (Source: Clarivate, 2020)
- **Scholarly and professional**—research is published in partnership with more than 500 key societies
- **Interdisciplinary**—exceptional discipline coverage spanning the humanities, social sciences, and science, technology, and medicine

Support
Interactive • Customer-focused
- **Customer support**—dedicated Account Representatives to assist with inquiries, renewals, and any questions specific to institutional accounts
- **Training**—user guides, videos, and live online training sessions highlight features and functionality for librarians and end-users
- **Usage-driving tools**—online banner ads, search widgets, posters, and custom end-user training

Discoverability
Consistent journal indexing • High visibility
- **Discovery services**—journals are indexed in Summon (ProQuest), World Cat Discovery (OCLC), Primo Central (Ex Libris) and EDS (EBSCO)
- **Weekly E-Resource Management (ERM) feeds** comply with the KBART (Knowledge Bases and Related Tools) II standard
- **Subject databases**—many SAGE journals are included in discipline-specific databases and discovery tools, such as PubMed, Scopus, and more

Access
Multi-device • Cutting-edge • Enhanced experience
- **Responsive design**—allowing a seamless multi-device experience
- **Enhanced features** to discover, navigate, read, and share
- **Usage statistics**—COUNTER 5 compliant and available for download
SAGE Premier

Designed with and for librarians • Notable savings off list prices of individual journals
• Digital access to more than 1,100 peer-reviewed journals
• Content ownership of the subscribed content published by SAGE during the term of the agreement
• Complimentary access back to 1999 (where available) while a current subscription is maintained
• Quality new content added to the package annually
• High-impact content—more than 54% of the titles are ranked*

Notable titles in SAGE Premier

Personality and Social Psychology Review
Journal of Management
The American Journal of Sports Medicine
Review of Educational Research

Learn more about SAGE Premier at sagepub.com/sage-journals-packages

*Journal Citation Reports (Source: Clarivate, 2020)
SAGE Deep Backfile Package

Content ownership • Flexible lease and purchase options
- Digital access to more than 600 peer-reviewed journal archives
- Perpetual ownership with annual upgrade opportunities
- Full-text coverage of the last issue from 1998 to volume 1, issue 1**

Practical benefits
- Save hundreds of feet of shelf space in your physical library
- Avoid the extra costs of keeping a print collection of hundreds of journal archives updated
- Increase end-user outcomes with flexible searching, browsing, and alerting capabilities for content from wherever users are located
- Support alumni success with the historical content needed for their career research

SAGE Shallow Backfile Package

This ownership opportunity will complete your collection of SAGE Journals content, offering articles published between 1999 and 2009 from more than 850 journals.

**At present, SAGE has located and provided on SAGE Journals 98% of the overall expected volume of backfile issues. Content from 1999 to the present is included with a SAGE Premier subscription.
Journals by subject area

Titles included in the SAGE Premier and SAGE Deep Backfile packages are also available in more focused, discipline-specific packages tailored to the Social Sciences, Science & Technology, and Health.

Available packages

**Humanities and Social Science Package**
- **FF** Digital access to more than 750 titles
  - More than 53% ranked in the JCR*
- **BF** Digital access to more than 470 backfile titles

**Science, Technology, and Medicine (STM) Package**
- **FF** Digital access to more than 470 titles
  - More than 56% ranked in the JCR*
- **BF** Digital access to more than 230 backfile titles

**Health Sciences Package**
- **FF** Digital access to more than 380 titles
  - More than 53% ranked in the JCR*
- **BF** Digital access to more than 180 backfile titles

**Clinical Medicine Package**
- **FF** Digital access to more than 270 titles
  - More than 51% ranked in the JCR*
- **BF** Digital access to more than 120 backfile titles

**Frontfile Subscription**
- Includes current content, with complimentary access back to 1999 while the subscription is maintained

**Backfile Package**
- Content ownership, with access from 1998 to volume 1, issue 1 (where available)

STM titles are also available in two subpackages

*Journal Citation Reports (Source: Clarivate, 2020)
Need something more specific?

SAGE offers 27 subject collections featuring high-impact, discipline-relevant journals.

Use the flexibility of collection acquisition to provide the targeted content that researchers are most seeking in both frontfile and backfile options.

- Cardiology & Cardiovascular Medicine

- Research Methods
- Royal Society of Medicine
- Sociology
- Urban Studies & Planning

Find more details, including title lists, at sagepub.com/subjectcollections
Hosting thousands of titles, SAGE Knowledge is home to a prestigious range of book and reference content—including scholarly titles, monographs, reference works, handbooks, series, and professional development titles, as well as business case studies and streaming video—making this the ultimate social sciences digital library for students, researchers, and faculty.
Features and benefits

SAGE Recommends

SAGE Knowledge features the innovative tool SAGE Recommends, providing suggested links to relevant content across all our platforms, including SAGE Research Methods, SAGE Journals, SAGE Business Cases, SAGE Video, and CQ Press Library, so that users can experience rich, scholarly, and innovative multimedia content.

Enhanced platform

The platform provides all the flexibility and ease of navigation that users have come to expect, such as mobile responsive design, unlimited simultaneous usage of all titles, and no physical digital rights management—ensuring peace of mind, regardless of how many users are on the platform.

Discoverability and support

Content is discoverable by major search engines at the title and chapter level to ensure that students find SAGE content no matter where they start their search. We also offer the following support to increase discoverability and usage:

- MARC records and COUNTER reports are available
- DOIs are registered for each title and chapter, deposited in CrossRef and displayed as permanent URLs
- Usage driving tools: banner ads, search widgets, training videos, user guides, and custom online training sessions highlighting features and functionality for both librarians and end-users

Request a 30-day free trial now at sagepub.com/trial

Newly and Improved Design

- Improved table navigation to view and navigate through large tables. Tables are now easier to download, allowing users to take the data and use it how they need to support their studies and teaching
- Improved table of contents navigation makes the platform in line with e-readers so students can navigate more efficiently while reading
- A mini table of contents within a chapter or entry allows readers to quickly get an overview of the chapter and quickly navigate to the most relevant content
- New in 2021! LTI Integration: Easy access to SAGE content from your Learning Management System (this can be used for all products)
How does SAGE and CQ Press Reference support research?

- **Authoritative, world-class content**: curriculum-driven topics are selected by international teams of experts in their field and authored by key scholars. Faculty can rely on our content to be the best of what is happening in the social sciences today.

- **Connects to the most relevant content**: links to other entries and recommended readings guide readers even further in their research journey.

- **Signed entries**: All our entries are rigorous, authoritative, citable, and easy to navigate.

Hundreds of must-have SAGE and CQ Press Reference titles are hosted on the SAGE Knowledge platform, providing students with the perfect place to start their research on key topics in the social sciences.

These reference titles are both broad and deep in scope, and they are presented in an authoritative, interdisciplinary, and accessible style, guiding every stage of the research journey anywhere in the world.
SAGE Knowledge hosts thousands of carefully selected titles by world-class authors and editors on hot topics across the social sciences. It includes academic and supplementary titles that contribute to the knowledge base of students and researchers, foundational books in core areas of research and debate, accessible student references, and numerous practical professional titles in education.

Featured subject collections

Choose the SAGE Knowledge collection that fits your budget and your needs. From the complete collection titles to subject-specific collections, we offer a wide variety of content across the disciplines to fit your budget and research needs:

- Business & Management
- Counseling & Psychotherapy
- Criminology & Criminal Justice
- Education
- Geography, Earth & Environmental Science
- Health & Social Care
- Media, Communication & Cultural Studies
- Politics & International Relations
- Psychology
- Sociology
SAGE Video streaming collections are developed in partnership with leading academics and practitioners, including many of SAGE’s own authors and academic partners, to deliver cutting-edge pedagogical and research-oriented video within the social, behavioral, and health sciences.
What is SAGE Video?

SAGE Video is an easily accessible resource with more than 1,600 hours of streaming video in the social, behavioral, and health sciences, created for use across higher education to support diverse pedagogical needs, from undergraduate teaching and learning to higher-level academic research. With a majority of videos in each collection that are exclusive to SAGE, SAGE Video combines originally commissioned and produced material with licensed videos to provide a complete disciplinary resource for students, faculty, and researchers.

What does SAGE Video do?

SAGE Video supports students of all levels through a range of video types that can be used within class, as class preparation, for further reading, or in online learning settings. The resource provides:

- Seminal documentaries on subjects aligned to core curriculum topics
- Case studies on classic and newly published research
- Tutorials illustrating practical applications of methods and concepts
- Interviews with leading experts on key topics
- Practitioner demonstrations of theories and techniques
- Observational footage of practitioners in real-life professional settings
- Short definitions of key terms and concepts

New to SAGE Video

Committed to keeping our collections relevant to current course curricula, SAGE Video will offer several content updates in 2021 to the following collections:

- **Criminology & Criminal Justice**: New content will explore how societal injustices, international and domestic, affect the criminal justice system and what can be done to reform it.
- **Psychology**: New content will explore how clinical diagnoses can be understood both in a multicultural context and across the span of human development.
- **Sociology**: New content will break down complicated contemporary sociological theories and explore how new ecological, financial, and technological developments create societal imbalances and feed power structures, explored through an intersectional lens.
- **Political Science & International Relations**: New content will explore the nuances and legacies behind current headlines and developing enduring political literacy, in addition to a concerted focus on explaining political narratives, from policy debates to shifting international relations.

SAGE Research Methods Video: Medicine & Health

The newest collection in SAGE Research Methods Video will cover research methods used across medical specialties spanning clinical study design, conduct and analysis, biostatistics, systematic review, and meta-analysis. Tutorials, case studies, in-practice films, and expert interviews will bring methods to life and include timely epidemiological and infectious disease research methods directly related to the COVID-19 pandemic.

*Available on the SAGE Research Methods platform.

"The well-designed interface provides various flexible, customized browsing or searching options." —Choice Magazine
Our video program has been developed in partnership with trusted advisors from libraries around the world, and each collection is overseen by an international editorial board.

Features

- MARC records, abstracts, KBART files, and full-text discovery service indexing
- Mobile-responsive design
- Videos easily integrated into course management systems and websites
- Hot keys, closed captioning, and full transcripts for every video
- Append a proxy prefix to video links to ensure off-campus access
- Audio descriptions*
- Related content suggestions across video, book, and reference titles
- Instructor-only, downloadable Assessment Questions**
- Continuing Education Units through Medcom Trainex**

New in 2021!

- LTI Integration: Easy access to SAGE content from your Learning Management System
- Offline playback

* Nursing collection and 2021 content updates only
** Select videos in the Nursing collection only

These videos not only provide variety but also help the viewers absorb the information.

—American Reference Books Annual
Licensing partners

SAGE Video includes carefully chosen award-winning films and seminal documentaries from the following partners to fit the scope of each collection:

- Australian Broadcasting Channel
- The Australian Institute for International Affairs
- BBC
- The Center for New American Media
- Collective Eye Films
- The Counselling Channel
- Documentary Educational Resources
- Educational Video Group
- Ideas Roadshow
- INTELECOM Network
- Oscilloscope Films
- Passion River Films
- The Media Education Foundation
- The Policy Studies Organization
- The Psychonomics Society
- Rotherham Metropolitan Borough Council
- Sheffield Hallam University
- Shortcuts TV
- Siren Films
- University of South Wales

What do academics think?

So much important information explained in an understandable way… An excellent addition to my source of videos.
—Bill Howe, Connecticut Department of Education

An impressive list of resources.
—Emmy van Deurzen, New School of Psychotherapy and Counselling, London

Easy to use...very impressed with the video collection. There are lots of options for teachers, clinicians, [and] researchers to use.
—Ed Donnerstein, University of Arizona

User-friendly video player

Ease of use and accessibility are at the heart of our video program delivery. Functionality meets student and faculty needs both inside and outside the classroom, and videos can be easily integrated into learning management systems and presentations.

- HTML5 player
- Speed up or slow down play, use closed-captioning, change video size
- Audio descriptions
- Create a clip with a unique URL
- Cite, share via email or social media, save to a playlist, or embed HTML code in a web page
- Auto-scroll; searchable, downloadable transcript
- Shortcut keys
- Embed your clips in your course management system

**A Calling to Care**

Chapter 1: Grace Stanley

Transcript

00:00 INVESTIGATING CALL TO PRAYER/MUSIC PLAYING

0:13 GRACE STANLEY: When I was living in Pakistan to teach nursing, most people couldn’t believe how much... thought, very few women in her 30s were able to have a secure job in Canada to move halfway around the world. I had been working at a beautiful hospital in Calgary for 14 years, and I had a very good job there, very interesting, very

0:45 working. I had worked there for many years with a group of nurses, contributed a great deal to the recovery of the patients in our unit. However, I was feeling the time for me to move on and to broaden my own experience. I had had

Using SAGE Video

A professor is designing a new course in the social sciences with a large distance cohort, and she is looking for material to keep students engaged, illustrate topics that can’t easily be demonstrated in the online environment, and support students with resources for assignments. She uses SAGE Video to:

- Create a playlist of clips of leading experts in the field for pre-lecture watching
- Assign engaging coursework by embedding documentaries in her course management system
- Share excerpts from key conference presentations via social media

I built a class on ‘Sociology of the Body.’ I provided both videos and articles on the topic to my students to accommodate different learning styles. I chose videos would interest them and help them to better understand the assigned reading. Providing videos also gives them variety—a reprieve from the usual resource, and they appreciate that.

—Dr. Sara Sutler-Cohen, Faculty, Colorado State University – Global Campus

Also Available

SAGE Research Methods Video

see page 23 to learn more
SAGE Research Methods supports research at all levels by providing material to guide users through every step of the research process. From those just learning the basics to expert researchers seeking publication, SAGE Research Methods has appropriate content, from a quick dictionary definition, a case study example from a researcher in the field, a downloadable teaching dataset, a full-text title from the Quantitative Applications in the Social Sciences series, or a video tutorial showing research in action.
What does SAGE Research Methods do?

Student research
- Essential supplementary support for course learning and for students working on dissertations and research projects
- More than 270,000 pages of content covering hundreds of methodological approaches help students at every step of their project
- Hundreds of video tutorials walk students through using qualitative and quantitative methods, as well as showing research in action

Faculty research
- Offers critical support in learning new techniques and methods
- Provides crucial resources to help faculty write up their methodology for publication in the best research journals
- Provides in-depth understanding of advanced methods and includes online access to the complete Quantitative Applications in the Social Sciences (QASS) series, also known as "The Little Green Books," as well as the Qualitative Research Methods Series (QRMS), or "The Little Blue Books"

Teaching research methods
- Serves as the perfect complement to coursework and traditional textbooks in research methods courses across the social sciences, humanities, and many STM disciplines
- Provides lesson plans and sample assignments that help students easily connect to concepts
- Aids faculty who oversee research papers and theses requiring original research

Librarians and information literacy
- Helps librarians teach information literacy, research skills, literature review, and writing
- Includes authoritative descriptions of how to conduct research from beginning to end

Search more than 1,100 full-text books, reference works, videos, and journal articles

Research methods come alive in 420+ hours of video

Use teaching datasets to master analytical techniques

Hundreds of case studies show how methods are used in real-world contexts

Get help with every step of the research process at methods.sagepub.com
SAGE Research Methods is the ultimate methods library, with more than 1,100 books, reference works, journal articles, and instructional videos by world-leading academics from across the social sciences, including the largest collection of qualitative methods books available online from any scholarly publisher.

The resources cover the steps of coming up with a research question, doing a literature review, planning a project, collecting and analyzing data, and writing up a report, dissertation, or thesis, plus detailed information on hundreds of qualitative, quantitative, and mixed methods.

Content and features

- More than 1,000 of SAGE’s renowned books, reference works, and journal articles in research methods, statistics, and evaluation
- Methods Map shows how methods terms and concepts are related
- Reading Lists can be used to compile lists of selected books, book chapters, journal articles, case studies, datasets, or videos for later review or to share with colleagues and students
- Project Planner guides users through each step of the research process with instructional content and links to material on the platform
- Which Stats Test helps users choose the best statistical method to use after they answer a few multiple-choice questions about their data

Magnum Opus Gold Award for Best Navigation
Apex Award for “One-of-a-Kind” Electronic and Web Publication
Choice Magazine Outstanding Academic Title
Modern Library Awards Gold Distinction
cases

Learn from stories of real research

SAGE Research Methods Cases are stories of how real research projects have been conducted. The platform houses more than 2,000 case studies showing the challenges and successes of doing research, written by the researchers themselves. The researchers explain why they chose the methods they did, how they overcame problems in their research, and what they might have done differently with hindsight—the realities of research that are missing from journal articles and textbooks.

Each case:
- Is peer reviewed
- Comes with learning objectives and discussion questions
- Can be used as a teaching tool to demonstrate a particular method
- Serves as inspiration to students who are preparing for their own research project

Choice Magazine Outstanding Academic Title

datasets

Master data analysis through hands-on practice

SAGE Research Methods Datasets is a collection of more than 500 teaching datasets and instructional guides that give students a chance to learn data analysis by practicing themselves. This bank of topical, engaging practice datasets, indexed by method and data type, is optimized for use in classroom exercises or in exam papers, saving faculty hours of sourcing and cleaning data themselves. The decisions researchers make when analyzing data can seem like a black box for students—through practicing analysis using real data from SAGE Research Methods Datasets, students can see how analytic decisions are made, helping them become confident researchers.

- Quantitative datasets are taken from surveys and experiments and come with instructions to analyze the data in SPSS, R, Stata, or Python.
- Qualitative datasets are taken from academic research projects, providing bite-size examples from interviews, focus groups, documentary sources, and more, plus advice on how to approach analysis.

Highly recommended.

—Choice Magazine
Bring research methods, statistics, and evaluation to life

Every librarian has encountered frantic students struggling with a paper or research project. We know that students have a range of preferred learning styles, and when students are already overwhelmed by the number of books or journal articles they need to read to complete their paper, more text-based resources may not be the most effective educational tools. SAGE Research Methods Video can help your students learn research skills by watching and listening and can help your teaching faculty deliver memorable research methods and statistics lessons by providing interactive and engaging visual content.

Content and features
- Includes tutorials, case study videos, expert interviews, and more
- Covers every aspect of research skills training and guides students through every step of the research process
- Contains more than 480 videos, with 70% of content exclusive to SAGE
- Students can access content at any time, and instructors can embed videos in their course management systems
- Includes an entire 15-hour introductory statistics course, which students can access again and again, ensuring that they master the concepts

Practical Research and Academic Skills
This collection of more than 400 video titles offers support on the practical skills that researchers need to successfully complete their projects. Key areas such as writing a research proposal, planning and designing a research project, project management, writing for publication, and securing ethical approval are explicitly covered.

Data Science, Big Data Analytics, and Digital Methods
This video collection covers data science methods, issues and challenges surrounding big data research, and examples and applications of computational social science research (also called social data science). Data science is a vast field, covering a huge range of statistical techniques and methodological issues, with applications reaching far beyond the social sciences.

Market Research
Covering the full range of qualitative, quantitative, and mixed methods commonly used, this collection of streaming video equips users to conduct successful market research.

Learn more about our other SAGE Video collections on page 14
SAGE Research Methods
Cases: Medicine and Health

Medical and health research is more crucial than ever, and this resource provides case studies that emphasize the researcher’s experiences and decision-making in designing and conducting a specific study in the fields of medicine and health. They provide users with generalizable lessons from the use of chosen methods and a more realistic picture of research than what is often found in textbooks.

Cases cover:
- Primary clinical and epidemiological research
- Interventional and observational studies
- Systematic review and meta-analysis
- Studies drawn from across all major medical specialties, as well as public health, nursing, dentistry, and health policy and services research

The case studies, written by researchers in the field, focus on research design, methods selection, and methods application. Each case includes learning objectives, multiple choice questions, and discussion questions, making them perfect for coursework.

SAGE Research Methods Video: Medicine & Health

Bringing medical and health research to life, this video collection will cover research methods used across medical specialties. These include clinical study design, conduct and analysis, biostatistics, systematic review, and meta-analysis. The 60-hour video collection includes tutorials, case studies, in-practice films, and expert interviews. Epidemiological and infectious disease research methods, directly relating to the current COVID-19 pandemic, will be covered, making this a timely collection for medical and health students. Video player tools such as the ability to create custom clips and embed video in learning management systems are ideal for online coursework.

Request a 30-day free trial now at sagepub.com/trial
SAGE Research Methods: Data Visualization

SAGE Research Methods: Data Visualization will teach both beginner and advanced researchers the fundamentals of data and design necessary to create impactful visualizations. Principles will be taught through a series of practical video tutorials, text entries, and practice datasets, and will teach users which chart types best fit their specific data story.

Researchers increasingly grapple with complex or big data and need to present their data in an understandable, easy to interpret, and informative way to disseminate their research successfully. Mastering the skills and techniques of data visualization—the art and science of presenting data in a graphical format—is, therefore, key for any researcher. It enables them to communicate their data with impact so that audiences can grasp difficult concepts or identify new patterns and relationships easily.

COMING SPRING 2021

Content & Features

- **A data viz gallery** introducing a spectrum of chart types across five categories of visualizations—categorical, hierarchical, temporal, spatial, and network—complete with both presentation tips and annotated examples of bad practice.
- **Approximately 30 hours of video tutorials** with experienced researchers, each sharing why they chose the particular visualization to answer their research question and demonstrating how they created it in their chosen software.
- **Clean datasets, accompanied by step-by-step guides** on how to create a particular visualization using a variety of tools, that will let users put their skills into practice.
- **Overviews of 75 visualization tools**, from Excel to Python, to help researchers determine the best tool for their needs.
Foundations

New to the SAGE Research Methods platform, Foundations provides a concise introduction to methods and research terms for those who are new to research in general or to that particular method. While a general search can provide an overwhelming number of results, Foundations provides a targeted list of entries to guide users through the content. The navigation menu puts the entry in context, so users can easily find more general topics related to a method or continue on to more specific sub-topics. Each entry will give users a general understanding of the topic and help them focus their search for additional content if they wish to dive deeper. Foundations is a perfect complement to the SAGE Research Methods suite, providing less experienced users with a guided starting point.

Content and features

- Dynamic site architecture guides users through content
- Entries are grouped into thematic series
- Newly commissioned content covers hundreds of methods and research concepts, including key studies and profiles of key figures in research
- What’s Next tool guides users through a natural progression through concepts based on what they’ve already viewed
- Content is connected to the Methods Map

SAGE Research Methods Content in Online Teaching:

- Easy to embed reading lists, videos, and custom clips in online courses.
- Instructional Guide for Online and Hybrid Teaching featured on the Faculty Resources page.
- Email and social media share features that enable collaborative work.
- Time-saving support for instructors. Expertly curated content is indexed by method and discipline, making it easy to find relevant content.
- Project Planner provides step-by-step guidance through the entire research process, supporting students who are more distanced from their advisors.
- Supports unlimited concurrent access meaning students never have to wait to access the content.
- Robust accessibility features including a mobile-responsive design, permalinks, hotkeys, closed captioning, and full transcripts ensure reliable access to all users on- or off-campus.
- No extra steps or expense for students to go purchase content for online classes
SAGE Campus supports the teaching and learning of skills and research methods through 200+ hours of structured online learning. Our courses are self-paced and instructor-led, comprising an engaging mix of SAGE-quality content, video, interactives, and formative assessments. Our flexible learning pathways cover tricky skills and methods that can be applied across all stages of academic study, from undergraduates looking to critically assess information to researchers looking to report and publish their data.
Online learning for skills and research methods

Learning style

SAGE Campus combines pedagogical expertise and instructional design to create structured online learning that is loved by students, researchers, and faculty alike. SAGE Campus online learning is engaging, challenging, fully up-to-date, and pedagogically effective. Most importantly, we ensure our courses give concrete, practical skills that can be applied to study, research, and the workplace.

- Fully self-paced to suit learners with different abilities, priorities or schedules.
- Top expert instructors write and create our online courses.
- Engaging content in a mix of formats chosen to support the topics.
- Interactive activities within a scaffolded learning environment.
- Practical activities to build and hone skills that require practice.
- Knowledge checks and formative assessments ensure learning outcomes.
- Signed certificates are unlocked on completion to keep learners motivated.
- Trusted SAGE quality content by academic experts that is rigorously reviewed.

I'm two lessons into the second module [on SAGE Campus' Introduction to Python course] and already wishing I learned this months ago. Honestly, if you work with data, beg your institutions for access to this course.

—Daniel Edmondson, PhD
Applied Linguistics candidate, University of Nottingham, UK

The place to learn practical skills for study, research and the workplace | campus.sagepub.com
Content pathway

The SAGE Campus suite currently consists of 11 online courses totaling 200+ hours, and we will have 50 hours of new courses launching in 2021. Each of our courses is stand-alone so learners can pick and choose, but they follow the below content pathway, covering the lifespan of study.

Our courses

Critical Thinking: An Online Course
Teaches practical techniques for confident, discerning critical engagement with sources, evidence, arguments, and reasoning.

Research Design in Social Data Science
Gives an understanding of the emerging field of social data science as a big data-driven approach to social science research.

Collecting Social Media Data
Teaches the essentials of collecting social media data and gives the skills to plan, gather, and analyze social media data for research.

Practical Data Management with R
Teaches how to use R to manage data in a wide variety of formats, in a reproducible manner, at scale.

Introduction to Text Mining
Gives a conceptual overview of the text mining landscape and a foundational understanding of the analysis of digital textual data sets.

Introduction to R
Gives beginners the knowledge and skills needed to use the R programming language and statistical software environment for social science research.

Introduction to Python
Perfect for beginners, this course teaches the fundamentals of Python programming through taught materials and practical examples.

Intermediate Python Skills
Teaches how to do more advanced data analysis and visualization using Python.

Fundamentals of Quantitative Text Analysis
Teaches how to analyze large amounts of textual data, at scale, using the R programming language.

Introduction to Data Visualisation
Teaches how to master the principles for transforming data into powerful visualizations, with a fresh, creative approach from data visualization guru, Andy Kirk.

Interactive Visualization with R
Teaches the techniques and tools for presenting data in visually attractive and interactive ways using the R programming language.

Use cases

SAGE Campus’ user-friendly platform makes it simple for students, researchers, and faculty to self-enroll on courses to take an autonomous approach to keep up with the latest skills and research methods. Furthermore, faculty can easily create cohorts on the SAGE Campus platform and assign courses to learners to:

Set as prerequisites or preparatory material for students who need extra support.

Supplement classes and enable flipped classroom learning on complex or technical topics.

Make the most of class time by using our courses’ activities to help students connect theory to practice.

Expand face to face training and make learning accessible for off-campus students.

Give career-ready data skills to increase employability in both industry and research.

Features

Our user-friendly platform makes it simple for faculty to assign courses to cohort, or for students and researchers to learn autonomously - building practical skills for study, research, and the workplace.

| Librarian | Librarians and institution administrators get an easy dashboard view of total usage, progress, and completion for their entire institution. They can also view and manage their different users on the platform. |
| Faculty | Faculty can create multiple cohorts on courses and track the progress of learners on their cohorts in a handy dashboard. |
| Learner | Learners can be assigned courses by faculty or self-enroll on courses, which is perfect for researchers, students, and faculty wanting to take an autonomous approach to learning. Learners can easily view their progress on the courses on the platform. |

The courses are well-organized and offer considerable value to students. I recommend the SAGE Campus course offerings to students, academics, and working professionals.

—Mark Dobeck, Professor in the College of Business, Cleveland State University, US

Get a 30-day full institution-wide trial at campus.sagepub.com/free-trial
Data Planet provides students and researchers with carefully vetted and harmonized data, with map and comparison visualizations plus table downloads to add power and context for researchers at all levels.
What is Data Planet?

Data Planet is the largest single repository of harmonized and structured statistical data available to libraries. This dynamic tool allows users to easily scan and search the contents of billions of datasets, compare and contrast variables of interest, and create customized views in tables, maps, rankings, and charts.

Researchers and students can navigate via browse and search to obtain incredibly specific indicators and locations in 16 topical categories. Data Planet eliminates the use of multiple sources by providing an all-in-one tool for anyone studying the trends in social sciences and looking to incorporate data into their research.

—The Information Advisor's Guide to Internet Research

Choice Outstanding Academic Title

New and Improved Design

- **Revised universal header** introducing a larger search bar, access to “Data Basics” data literacy content, unified help options, and a larger space for institutional logos
- **New home page** providing a "soft landing" for users new to data and the platform
- **“Data Basics” reference library**, which will act as an entry point to gain data literacy skills and learn about properly working with data
- **Updated Data Planet data viewer page**, including improved navigation, criteria selection and legend, as well as simpler iconography for tools
- **Revised search results page** to simplify results and enhance the filtering capability
- **New geography browse**, allowing users to easily filter results based on geographic location
- **Improved accessibility** to ensure the enhancements we make to Data Planet work for all of our users
How does Data Planet support research?

Data Planet eliminates the use of multiple sources by providing an all-in-one tool for anyone studying the trends in social sciences and looking to incorporate data into their research.

- Provides extensive subject coverage, with more than 13.5 billion U.S. and international datasets from more than 90 sources
- Saves researchers and students valuable time with easy navigation via browse and search, while providing the confidence in obtaining validated data they can cite
- Promotes efficient research through the ability to manipulate datasets, compare multiple indicators and sources, chart trends over time, and map data on a single interface
- Enhances learning by providing source and variable descriptions to help researchers understand and interpret what the data means

Premium modules

Data Planet also offers seven premium modules, which are available as supplements to the core collection:

- **China Yearly Statistics (National/Subnational)** provides yearly historical indicators of social and economic characteristics of the People’s Republic of China and its provinces, cities, counties, and districts.
- **Claritas Consumer Profiles** comprises three distinct consumer segmentation products (PRISM®, ConneXions®, and P$YCLE®) that classify U.S. households according to shared demographic, lifestyle, and behavioral traits.
- **Claritas Financial and Insurance CLOUT™** consists of current-year estimates and five-year projections of usage and demand among U.S. households for more than 100 financial products, as well as for more than 300 insurance and annuity products and services.
- **EASI Market Planner** offers model-based indicators of demographic characteristics and spending and behavior patterns of U.S. consumers for a wide range of geographic areas.

Using Data Planet

Master’s student

A master’s student studying economics is working on a research project focused on business bankruptcies in relation to wider economic indicators globally. The student needs to find and compare all relevant data points to determine the level of correlation that might be present and to get a well-rounded understanding of the trends across indicators.

Data Planet supports

- Writing papers based on or supported by data
- Analyzing data to identify trends and relationships among indicators
- Discovering new sources of data relevant to an area of study
- Practicing research methods with data relating to an area of study

- **InfoGroup Business USA** contains data on businesses in the United States for national and subnational geographic units, as well as for U.S. territories. Statistics include company counts, employee counts, and sales by industry, company, and company location.
- **Quarterly Workforce Indicators** from the U.S. Census Bureau offer a set of 30+ indicators covering employment, job creation/annihilation, wages, hires, and other measures of employment flows. This enormous database provides billions of statistics for U.S. states, counties, and MSAs.
- **Woods & Poole** offers economic data and highly detailed population data forecast to 2050, for all U.S. states, regions, metropolitan statistical areas, and counties making it ideal for investigating present and future demographics and business climates.
Incorporating Data Planet into the digital classroom

Many universities have transitioned to online instruction and may continue to do some or all of their teaching remotely in the semesters to come. While this digital classroom format is not without its challenges, accessing resources to aid in teaching and learning does not need to be among them.

Data Planet can be accessed from wherever students, researchers, and faculty are, whenever they need it. This expansive resource offers:

- **Easy to embed static and dynamic data** for online courses (no need to re-license data each semester; embeds include linked access to full data collection to continue further data research)
- **Export features including persistent DOIs for any accessed dataset or visualization, PowerPoint, XML, permalinks back to specific data views**, and more offer additional ways to integrate data into digital curriculum
- **Additional tools to support student understanding** via the interactive Self Help feature, the extensive topical Search Guides, the new “Data Basics” data literacy content, and the Data Planet blog written by our very own Editorial team
- **Time-saving support for instructors**. Data is indexed both by source and subject, making content is easy to discover on the platform
- **Affordability. No need for faculty to make one-off purchases or library requests for individual datasets.** The cost savings are particularly relevant as schools face budget uncertainty and cuts, potential loss of international student revenue, and more
- **No extra steps or expense for students** to go purchase datasets for online classes
- **Alumni access** means graduates can access valuable data even after they’ve left the classroom

The SAGE collection of resources empower students to shape the future of business. Created to foster the needed skills and strategy for transformative business research, these are the tools needed for future success in a thriving global society.
Our portfolio of business resources

SAGE Business & Management provides quality resources in a variety of formats for every stage of business research. Discover why researchers and professionals alike trust us to provide the tools they need to thrive in today’s dynamic business environment.

cases
A modern case collection
SAGE Business Cases is the first discipline-wide digital collection tailored to library needs, providing campus-wide access to cases and making discovery and research easier outside of the traditional per-case purchase model. This expansive and innovative case resource provides both foundational business coverage, and emerging trends with diverse, global viewpoints to the modern business researcher.

dataplanet
A universe of data
Data Planet is the largest single repository of harmonized and structured statistical datasets available to libraries. It offers billions of indicators that are highly relevant to business, marketing, and entrepreneurship students and faculty. With coverage of 16 major subject categories, researchers can analyze data down to the ZIP Code and county level. Data Planet also offers a selection of premium content with applications in business programs, each with an area of core emphases such as marketing, entrepreneurship, international business, labor economics, and more.

journals
Your gateway to world-class journal research
The SAGE Journals Management & Organizational Studies Collection includes 121 peer-reviewed journals published by SAGE and participating societies, encompassing over 81,884 articles. Access to content from January 1999 to the present is included in this collection subscription. 58 titles in this package are JCR ranked, including but not limited to the Administrative Science Quarterly, Organizational Research Methods, and Journal of Management.
video
Bringing teaching, learning and research to life
The SAGE Video Business & Management Collection supports students of all levels through a breadth of streaming videos on topics as varied as international business, entrepreneurship, and social media marketing. Our new SAGE Video Leadership Collection is an interdisciplinary resource with content to help hone leadership skills and competencies, recognize different leadership styles, and understand challenges and application of leadership through a range of video types from case studies and tutorials to in practice and expert interviews.

books
The ultimate social sciences online library
SAGE Knowledge is the ultimate social sciences digital library for students, researchers, and faculty. The Business & Management Collection brings together first-rate, authoritative reference works, academic books, professional development titles, and more—creating the perfect place to start research on key business topics.

skills: business
Launching Fall 2021
Practice real-world business and professional skills with SAGE Skills: Business. This new multimedia resource is supporting a wide range of skills, including organizational communication, data analytics, leadership, entrepreneurship, and professionalism. Students develop high-demand competencies needed to transition from campus to the workplace.

sagepub.com/sage-business-management
Why SAGE Business Cases?

SAGE Business Cases brings business to life—inspiring students to develop their own best practices and prepare for professional success. The first significant, discipline-wide digital collection tailored to library needs, SAGE Business Cases is highly interactive, faculty friendly, and allows for instant and lasting IP access, rather than the usual per-case purchase model. SAGE Business Cases is designed to engage students in applying core concepts to practice through the use of examples from the global business environment. Our editorially driven approach focuses on developing original content and key university and association partnerships to build a collection of more than 4,250 cases representing over 100 countries for transformative business research.

Sample cases
- How Will BLM Change Corporate Activism
- Employment Versus Environment: The Complexities of Managing the Interests of Northern Pulp’s Multiple Stakeholders
- Busboys and Poets: More Than a Restaurant

sk.sagepub.com/cases
SAGE Originals

Our SAGE Originals cases are exclusive to SAGE Business Cases, focusing on current trends and shifts. Leading academics take on core and emerging trends in business education, such as healthcare management, sustainability, family business, social impact, and more. These double-blind peer-reviewed cases all feature teaching notes and discussion questions.

SAGE Originals case series

- Ancient Leadership
- New! Coaching & Mentoring
- Economic History
- Family Business
- Food Marketing
- Global Marketing
- Healthcare Management
- Humanities and Arts in Business
- New! Immigrant Entrepreneurs
- International Strategy
- Music Marketing
- Social Impact
- Sustainability
- New! Valuation
- Venture Capital
- Women & Leadership

Meet our content partners

In addition to SAGE Originals cases, our collection includes cases from over 20 world-renowned institutions and associations, including:

- Yale School of Management, Yale University, USA
- Kellogg School of Management, Northwestern University, USA
- The Berkeley-Haas Case Series, Haas School of Business, University of California, Berkeley, USA
- University of Zurich, Swiss Chinese Case Study Center, Switzerland
- The International Council on Hotel, Restaurant and Institutional Education (ICHRIE), USA
- Human Kinetics
- Institute of Management Accounting
- Society of Human Resource Management
- New! Indian Institute of Management, Kozhikode
- New! Renmin University of China

To see our full list of content partners, go to: sk.sagepub.com/business-cases-partners

In-demand content

Our Cases 2021 collection features two innovative case types, Express, and Enhanced. Express Cases are published 6x/year over the course of the year. These short, news-driven cases connect theory to current affairs in business. Express Cases are ready to implement—no preparation work is needed from students, making it easy for instructors to bring into classroom discussions.

Meeting known demand from faculty, our new Enhanced Cases put an emphasis on increased student engagement. Cases feature video, animation, and interactive data embeds from Data Planet.

Request a 30-day free trial now at sagepub.com/trial
Launching Fall 2021!

SAGE Skills: Business helps libraries and institutions deliver on their promise of improved student outcomes. This new offering of comprehensive, easy-to-use, and interactive resources supports students in gaining the skills relevant to their academic and professional success.

Empower students to develop and practice real-world business and professional skills needed to transition from campus to the modern workplace. Relatable narratives of real workplace experiences allow for practical context to be applied to academic content, preparing students to navigate professional opportunities and challenges.

This new interactive digital resource covers over 650 business skills across five modules:

- Organizational Communication
- Data Analytics
- Leadership
- Entrepreneurship
- Professionalism

Multi-media content types included:

- Interactive scenarios
- Self-assessments
- Ask the experts
- Suggestions for further reading
- Live data embeds and Excel spreadsheets
- Video including real-life settings, animation, and keyboard demos

SAGE is committed to creating engaging content for students to practice needed skills, helping them build the foundation for a meaningful, high-impact work life.

– Maureen Adams, Executive Editor

SAGE Skills: Business can...

- Build in-demand soft skills such as communication and teamwork
- Provide practical advice that students can apply on day one in their chosen field
- Support independent and classroom learning opportunities across a wide range of professions
- Gain key insights from practitioners and experts in diverse fields
- Support learning of functional data analytical skills
- Demonstrate how current business and management research can inform best practices in the contemporary workplace
Technologies for Learning & Research

SAGE Publishing now offers software to improve the discovery, access, and use of library resources for teaching, learning, and research. For more than 50 years, SAGE has published high-quality content for a global community of scholars, practitioners, and students and is firmly committed to making research-based resources impactful. These new publisher-agnostic solutions will maximize the value of your content by moving it into the patron workflow – putting learning materials into course reading lists and learning management systems, research into the web browser for convenient search, and the library’s own archival content in one easy-to-use platform.
Our portfolio of products and services

**Course resource management**

Talis helps connect teaching and learning. Its enterprise teaching and learning platform, **Talis Aspire** is a resource list management system for academic libraries, enabling them to manage multiple course reading lists, connect faculty and students with the relevant library holdings, and support efficient library purchasing decisions.

See page 43 to learn more.

**Create digital collections**

Quartex, an Adam Matthew Digital Platform, is designed to help libraries and archives easily publish, showcase, and share their own archival material. It is a fully hosted solution that incorporates cutting-edge technologies to help maximize the discovery of all digitized content types.

**Library services**

Lean Library is an award-winning tool that helps the library meet its patrons wherever they are researching - seamlessly delivering library resources, services, and branding though a simple, yet powerful browser extension.

See page 44 to learn more.
Talis, a library technology provider, is now part of the SAGE family. Talis helps connect teaching and learning in new and better ways with Talis Aspire, which makes it simple to create and manage resource lists that integrate fully with your systems and Talis Elevate, which allows you to observe how your students are engaging with your content. Already used by over 1 million students at more than 100 universities across 8 countries, and counting, Talis aims to be a partner in the changing landscape of content and access.

Talis Aspire

Talis Aspire scales the delivery of accessible learning materials throughout your entire university, including:
- Enabling faculty to establish an evolving digital syllabus by easily organizing, contextualizing, and presenting relevant course materials to students
- Providing students with seamless access to course materials wherever they need them, directly in their learning management system and on any device
- Equipping the university with an improved user experience by integrating the Library’s workflows, holdings, and e-reserves systems into the teaching and learning activities executed year-round

Talis Elevate

Talis Elevate builds resource collaboration, engagement, and insight into the heart of learning and teaching practice, including:
- Putting discussion at the forefront of your resources
- Encouraging peer review, reflection, discussion, debate, and critique of content as students can engage collaboratively on core teaching materials
- Enabling students to engage through anonymous commenting, giving them the confidence and ability to ask questions without concern or perceived bias
- Helping you develop a co-creation of knowledge approach to your teaching directly within your content
- Allowing students to take their own private notes on each shared resource as well as engage in class-based discussion, all in one place

Talis Aspire offers the opportunity to upgrade to a functionally rich system which will appeal to today’s students whilst being underpinned by comprehensive and effective administrative workflows.

—Christine Middleton, Head of Academic Services, University of Nottingham

For more details, please contact info@talis.com or visit talis.com
**Light up your library**

**Lean Library Access** is a powerful access solution that helps libraries drive usage, increase visibility, and save money. Created by librarians for librarians, **Lean Library Access** is a browser plug-in which seamlessly delivers library resources and branding into your patrons’ workflows, solving access issues to deliver the content your patrons need, when they need it.

**Lean Library Access** consists of a patron-facing browser extension controlled and tracked by an intuitive librarian-facing dashboard. It provides:

- **Seamless Access**: Instant and seamless access to your subscribed resources, on-campus and off-campus - wherever your patrons are
- **Alternatives**: Open Access alternatives for full-text articles and resources when patrons hit paywalls, extending available library content and avoiding patron fees
- **Assist**: Library promotion, through a branded presence in the users’ browser and the ability for librarians to easily send targeted and personalized messages directly to their patrons in their workflows
- **An intuitive dashboard to track patron usage and configure your service and much more.**

Growing usage of your library resources

By delivering library resources directly into the patron’s workflow and streamlining access, Lean Library consistently increases usage across your library resources. In a study conducted by the library at Mersey Care NHS Foundation Trust, they experienced a 40% increase in resource usage after integrating Lean Library.

Access information without sacrificing privacy

**Lean Library** is committed to privacy, holds no patron data, and is fully GDPR compliant.

An easy transition

**Lean Library’s** ready-to-go technology enables you and your patrons to transition into better communication and access with no downtime.

Once installed, patrons simply download the extension once to gain anytime access to library resources.

---

*“Most Impact Product” at Charleston 2017
“2017 Disruptor Zone” at London Information Online*
Enrich the understanding of history and culture with Adam Matthew Digital's carefully curated digital primary sources for the humanities and social sciences. Developed by dedicated editorial teams, and through the innovative use of technology, AM Digital collections bring the world's leading archives and libraries to academic communities across the globe. The range of interdisciplinary titles, comprising manuscripts, video, government records, photographs, newspapers, maps, audio, artwork, and more, offers fascinating opportunities for undergraduate and postgraduate students, researchers, and academics.
Key features

Adam Matthew Digital resources include a variety of bespoke interactive features to aid classroom engagement and student use.

Unique Handwritten Text Recognition (HTR)
HTR is a groundbreaking search technology that uses artificial intelligence to deliver full-text search results in manuscript material. Available in selected AM Digital resources, the HTR application uses complex algorithms to determine possible combinations of characters in handwritten documents, transforming the discoverability of manuscripts for students and scholars.

Data visualization
Visualization tools allow access to data built on decades of research compiled by leading scholars in their fields. From global energy production and consumption to commodities pricing and migration data, each powerful tool offers limitless opportunities for teaching and study.

Mapping
Trade routes, global empires, the growth of London, battlefields, and more can all be explored with cutting-edge interactive maps.

360° object viewer
Historical artifacts are brought to life through a 360° rotation viewer, allowing close-up “handling” of raw materials and objects. Items include souvenirs obtained from early World’s Fairs, military equipment from World War I, and Victorian inventions showcasing the development of moving pictures.

Explore the collections further and request a free trial at amdigital.co.uk
As an award-winning publisher of primary source content, Adam Matthew Digital has 30 years’ experience of curating and showcasing archival collections. This experience has informed development of the technology underlying all the collections we release, which ensures that our customers can effectively discover, access, and explore the content we publish.

This technology is made available, as Quartex, to libraries, archives, and other heritage institutions, to facilitate digital open access publishing. Quartex is a hosted solution developed by a dedicated and skilled team of engineers. It is designed to support a broad range of repositories’ needs, including academic libraries, public libraries, historical societies, and museums. It benefits from a continual program of investment and development, as new functionality is added to support the requirements of both customers and the AM Digital publishing schedule.

Through Quartex, we can now publish our collections on one robust platform, making them discoverable and easy to use.

—Shelley Hawrychuk, Chief Librarian, University of Toronto Mississauga Libraries

For more details, please contact info@quartexcollections.com or visit www.quartexcollections.com
Empower your students with the practical tools they need to understand and interact with primary sources.

Key areas of study include:

- How to critically evaluate a source
- How to read digital archives
- How to understand underrepresented voices in the archive
- How to use digital tools such as data mining
- Introducing types of archives
- Experiences of working in archives

To find out more visit www.amdigital.co.uk
or contact info@amdigital.co.uk
CQ Press Library is a portal into a world of authoritative, award-winning resources on American government, current affairs, history, politics, public policy, and data analysis for the social sciences that meet the research needs of the most demanding students and scholars.
What is CQ Researcher?

For nearly a century, CQ Researcher has remained the acclaimed, award-winning choice of librarians and students for research on social and political issues. At a time when news is often reduced to sensationalized headlines and sound bites, CQ Researcher offers trusted, in-depth, and balanced explorations of the day’s most pressing issues. An annual online subscription allows researchers to access the past 10 years’ worth of issues, plus 44 new reports each year.

Key features and benefits

• Delivers thorough, balanced explorations of the most pressing issues in the news
• Engages readers with original reporting by experienced journalists
• Features a structured and easy-to-use format with mobile-responsive design
• Poses and addresses issue questions and includes a “Pro-Con” debate
• Guides students to authoritative, logical sources for the next step in their research
• Provides an excellent pedagogical tool for teaching students how to research and write
• Links to other relevant content from SAGE via SAGE Recommends

There is no substitute for CQ Researcher’s collection of comprehensive and authoritative reports on social and political issues.

—Charleston Advisor, May 2017, 4.25/5 stars

CQ Researcher Archive

The CQ Researcher Archive adds valuable historical perspective and insight to your collection, providing access to more than 4,500 reports from 1923 to the present.

Request a 30-day free trial now at sagepub.com/trial
What are the CQ Press Database Collections?

The CQ Press Database Collections are the definitive resources for researchers seeking information on American government, politics, history, public policy, and current affairs.

Key features and benefits

- **High-quality material:** All content is produced and vetted by scholars, seasoned journalists, and CQ Press editors
- **Valuable tools that support the entire research process:** From identifying a topic to researching a variety of sources, to developing a bibliography for further research
- **A combination of full-text and analytical database resources:** Entries offer an array of data and documents; data query and export tools can be used to carry out original research
- **Unbiased treatment of controversial issues:** CQ Press content is renowned for being trustworthy and balanced

Using CQ Press Database Collections

**Course:** Voters and Elections

**Description:** A student must answer this question: Are geographic voting patterns within Michigan and Ohio in presidential elections consistent over the past 20 years? The student turns to the CQ Press Voting and Elections Collection to:

- Use the Compare Data function to view and download election results and see how each state has voted over a 20-year period
- Look by county to see if particular counties are more likely to flip between parties

**Course:** U.S. Congress

**Description:** A student must select a legislative bill, track its progress through Congress, and analyze the votes. Was the vote partisan? How many members crossed party lines? What was the final outcome? The student turns to the CQ Press Congress Collection to:

- Browse floor votes to select an issue or legislation and relevant floor votes
- Download the roll call votes to analyze results

CQ Press Congress Collection

Allows contemporary and historical analysis of members of the U.S. Congress, their legislative voting behavior, interest groups, and their interactions in crafting public policy.

CQ Press Supreme Court Collection

Blends historical analysis with timely updates and expert commentary on Supreme Court decisions, justices, Court history, and the U.S. Constitution.

CQ Press Voting and Elections Collection

Provides in-depth insight into the American voter, major and minor political parties, and historical and modern races for Congress, the presidency, and governorships.

CQ Press Public Affairs Collection

Presents coverage of vital public policy issues, statistical and historical analyses, historic documents, and primary source materials.

CQ Press Encyclopedia of American Government

Offers answers to the full range of questions that students, government professionals, interested citizens, and other researchers have about the institutions of U.S. government.
CQ Magazine provides superior reporting on the world’s most powerful legislative body completely and accurately every week. The CQ news team—by far the largest on Capitol Hill, with more than 100 reporters, editors, and researchers—covers virtually every act of Congress, delivering nonpartisan news and analysis unavailable anywhere else.

Content and Features:

- Each weekly issue reports on issues looming on the congressional horizon, plus a complete wrap-up of the previous week’s news, including the status of bills in play, behind-the-scenes maneuvering, committee and floor activity, debates, and all roll-call votes.
- Written in plain-English prose, CQ Magazine makes it easy for people “outside the Beltway” to understand complex legislation and its ramifications.
- Detailed floor votes dating back to 1983 are easily retrieved. Advanced search allows users to search by topic, page number, committee, exact phrases or words, bill number, byline, reporter, or Boolean full-text and date searches.

CQ Almanac is the definitive annual reference for studying the U.S. Congress. The Almanac offers original narrative accounts of every major piece of legislation that lawmakers considered, including how bills are changed, derailed, or ultimately passed during a congressional session.

Content and Features:

- CQ Key Votes identify the most critical votes in determining the outcomes of congressional actions
- Analysis of roll call votes cast in Congress with easy-to-read tables
- Policy Tracker can be used to explore a specific policy topic and see how it has changed over the years
- Available annually as an online edition, or as a fully archived backfile collection dating from 1945 to present
SAGE is here to help you get the most out of all the resources featured in this catalog. Whether you are just starting a trial or have subscribed for years, you can find the following support.

**Trial Training:** Dive into our content and platforms while you’re in a trial to see how they will fit with your users. These sessions are live and customized for your institution.

**New Customer Onboarding:** Resources are provided to help you implement and promote your new acquisition. We also offer live training for librarians, library staff, faculty, and students.

**Refresher Training:** With periodic new content additions and platform enhancements, refresher trainings are provided to keep you up-to-date with your resource.
