Search

Quick Search

A **Quick Search** across full-text articles can be performed by entering keyword(s) or author information in the **Search all journals** field. Quick searches may also be performed within each journal site.

Advanced Search

Advanced Searches use a signature fielded Boolean system. This award-winning search tool allows you to construct a multi-term query specifying terms and their logical relationships using the Boolean operators AND, OR, and NOT. Multiple terms entered in a single search box are treated as an exact phrase. Each search term row can be limited to search across specified content areas (i.e. title, abstract, full text, references).

Search Within: use this feature to narrow your results by selecting

- *SAGE Journals Available to Me*, All SAGE content, or My Favourite Journals
- Select from a list of titles and disciplines

*Choice Magazine's
Outstanding Academic
Title Award*

Browse

Browsing journals by title

Expand or collapse alphabetical journal lists by clicking on the “+” or “-“ buttons next to each letter. You may also click on a letter from the horizontal alpha list to quick jump to the corresponding journal list.

Browsing journals by discipline (Figure 2)

Browse journals by four primary topics (Social Science & Humanities, Health Sciences, Life & Biomedical Sciences, and Materials Science & Engineering) and their corresponding disciplines. Expand or collapse topic areas to reveal additional discipline listings within each group by clicking on the “+” or “-“ buttons. Journal lists by discipline will then appear.

Browse Within: both the “Browsing journals by title” and “Browsing journals by discipline” options allow you to limit your browse to My Favourite Journals or *SAGE Journals Available to Me*.

From either Browse option, once you have found a journal you are interested in, click on the title and you will be taken to its homepage where you can sign up for Email Alerts, view journal information, OnlineFirst articles, and Tables of Contents, and conduct journal-level searches.

Abstract and Article Level Features

View the abstract, full-text, or references (depending on access rights) of articles or purchase short term full-text access via pay-per-view. Features and functionality include (Figure 5)

- **Feature hideaway**—Author affiliations, related links, and other functions can be expanded or hidden from view; these preferences are retained throughout a session (14)
- **Keyword pivot searches**—For all journals, keywords are now hyperlinked and perform quick searches of that term within all content in that journal (15)
- Add an article to your preferred Social Bookmarking site(s) (16)
- “Free to you” tags that indicate if you have access to the full-text (17)
- View all versions of the article (18)
- Email the article to a friend (19)
- Register for alerts for when an article is cited or if a correction is posted (20)
- Link to similar articles in the journal or from other services (21)
- Download an article to your preferred citation manager program (22)
- Request Permission and Reprints (23)
- View other articles written by author(s) via Google Scholar and PubMed (24)
- **Tag-along navigation**—Article Services features follow alongside as users scroll down the page in both the abstract and full-text HTML article views

Full-text articles also include the following features

- **PowerPoint downloads for figures**—for full-text HTML journals, allows you to download figures from within an article into a PowerPoint slide with the click of a button.
- **Pop-up references**—for full-text HTML journals, full citations pop up when you hover over reference numbers within the text of an article.
- **Toll-free inter-journal linking** (Figure 6)—in the References view of an article, users can link to non-subscribed cited articles that are also hosted on the SJ and Highwire Press platforms (25).

Getting Started

Go to the *SAGE Journals* homepage at <http://online.sagepub.com> and click on the **Sign In** link to create your individual account and profile. You may also create your account from the **My Tools** tab and click on the **Email Alerts** option. The registration process takes just one minute and allows you to create free personalized alerts for tables of contents, keyword, and authors. **My Favourite Journals** lists for targeted searching capabilities, and access previous search terms and saved citations (see **Saved Citations** and **Saved Searches**).

Search History

During each of your current sessions on *SAGE Journals*, your search term(s) will be tracked through the **Search History** feature. For each search term(s) you use during your session you may edit, add to **Saved Searches** (see **My Tools**), delete, run search, or save the term as an alert. If you have more than one search term during a session, you can also combine searches with a Boolean “AND” or “OR” to create a new search term.

My Tools

The **My Tools** page (Figure 7) allows first time users to create their individual accounts and to manage their profile and settings through the **Email Alerts**, **My Marked Citations**, **Saved Searches & Saved Citations**, **My Favourite Journals**, and **Manage My Account** features.
