Advertising Rates and Specifications - 2019

Society Affiliation: ABSA International

Readership profile: Applied Biosafety (APB) readers include biological safety specialists and professionals from virtually all major universities and representatives from federal, state, and local agencies, private laboratories, manufacturers, pharmaceutical companies, and distributors of biological safety equipment, both national and international.

Coeditors-in-Chief: Barbara Johnson and Karen B. Byers

Applied Biosafety: Journal of ABSA International (APB) is a peer-reviewed, scientific journal committed to promoting global biosafety awareness and best practices to prevent occupational exposures and adverse environmental impacts related to biohazardous releases. A goal of Applied Biosafety is to provide a forum for exchange of sound biosafety and biosecurity initiatives through publication of original articles, review articles, letters to the editors, commentaries, and brief reviews. We welcome and encourage submissions which further the profession of biosafety.

ABSA International (American Biological Safety Association) was founded in 1984 to promote biosafety as a scientific discipline and serve the growing needs of biosafety professionals throughout the world. The Association's goals are to provide a professional association that represents the interests and needs of practitioners of biological safety, and to provide a forum for the continued and timely exchange of biosafety information.

Requirements For Electronic Delivery
General Instructions
A high resolution, press-ready PDF is required for all electronic ad submissions. All fonts must be embedded. Minimum required image resolution is 300 dpi for color or grayscale images and 900-1200 dpi for line art (1-bit) images. All color files must be created and submitted to SAGE in CMYK color mode. SAGE will convert ads submitted in RGB but is not responsible for color reproduction on these ads. 2-color ads (standard) must be provided as black plus 100% cyan, magenta, or yellow.

Image Size/Crop
Digital art files should be cropped to remove non-printing borders. Art should be created or scaled to the size intended for print. Image orientation should be the same as intended for print. For ads that are intended to run off the page, a 0.125” minimum bleed is required on all sides.

Proof Instructions
Color Ads
An identifiable SWOP-certified proof (Specifications Web Offset Publications—www.swop.org) must be supplied with the final digital file. If a SWOP-certified proof is not supplied, then SAGE cannot guarantee correct reproduction of color. Any omissions or color deviation from a submitted proof, other than a SWOP-compliant proof, will not warrant compensation to the advertiser.

B&W Ads
A hard-copy proof the same size as the digital art must be supplied with the final digital file.

File Submission Instructions
Please supply files on one of the following media: CD-ROM or e-mail. If e-mailing artwork, then send the proof in a separate package in the mail.

Inserts
All bind-in cards and inserts are jogged to the head. All bind-in cards and inserts must have 0.125" trim beyond the crop mark area of the head, foot, gutter, and face of the advertisement. Perforations must be 0.375” from gutter.
All live copy should be no closer than 0.25” from the trim.
For inserts, 70# coated stock is the minimum weight and 110# coated stock is the maximum.

Digital Advertising Disclaimer
Advertising materials must be submitted in a file format acceptable to SAGE. All advertising materials will be subject to SAGE’s approval prior to posting. Any digital advertising orders for which acceptable production-ready advertising materials are not received by SAGE within eight (8) days after the flight date, the order will be subject to cancellation, and in such event Advertiser will be responsible for the full payment amount of the order.
